

Dear Steam in Action Members,

11 May 2009

SAVE A VENERABLE STEAM CRANE - YOU WILL NOT REGRET IT! **STEAM CRANE AT DE AAR - URGENT RELEASE**

In accordance with the working relationship agreement between Reclam and SIA, Reclam has advised that they have recently been successful in acquiring Cowans and Sheldon Steam Crane No 94 which is standing at De Aar and that they are giving SIA the opportunity to save this unit.

The crane is stored indoors and appears to be in very condition and complete. The weight of the steam crane is approximately 110 ton and with the current selling price of scrap metal it is worth R 250 000.00 to Reclam. They advise that taking processing costs and transport into account the nett figure of R 231000.00. As they would rather see crane restored than scraped they are prepared to provide a further discount of R 21 000. The asking price is therefore R 210 000.00 excluding VAT.

This is a golden opportunity for SIA members to acquire one of the last Steam Cranes available in South Africa.

SIA has been given a week to indicate whether any of its members would like to take advantage of this offer.

Should you be interested please contact Mike Myers on +27 11 805 4692 or +27 82 990 1492 or e-mail mikem@sandstone.co.za.
