

Sandstone News September 2012

Arnold Jung 847 nears completion.

Lukas Nel has advised that subject to boiler tests and normal pre delivery checks the Arn Jung loco is likely to be in full operational order by the Stars of Sandstone in May next year.

Lukas has done an astonishing job on this locomotive bearing in mind the parlous state in which we found this locomotive in Angola. If anyone would like to make their thoughts known to Lukas please feel free to e-mail him at the following e-mail address: lucasn@telkomsa.net.
